Consultant – Certification Cell
(Quality Improvement Division)

National Health Systems Resource Centre (NHSRC) is a technical support organisation under the National Health Mission, Ministry of Health & Family Welfare. NHSRC channelizes required technical assistance for the MoHFW and the States for various tasks. Such requirements are dynamic in nature. Work at the NHSRC is organised around seven divisions, namely – Community Processes & Comprehensive Primary Care, Healthcare Financing, Healthcare Technology, Human Resources for Health, Public Health Planning, Public Health Administration and Quality Improvement.

If you have a commitment to health equity and excellence, here is a unique chance to work with a team committed to shaping the public health landscape in India. The position offers you an opportunity to participate in the process of strengthening health systems, improving health service delivery and enabling positive health outcomes. Working with a trans disciplinary team, you can discover, adapt, co- create and disseminate solutions to multiple challenges related to service delivery systems, universal primary health care, human resources for health, community processes, health financing, quality of care, public health planning and health promotion.

For improving Quality of care of services, delivered at the public health facilities, National Quality Assurance Standards were developed under the National Health Mission. For this initiative, NHSRC performs task of the secretariat on behalf of the Ministry of Health & Family Welfare. In the year 2013, QA Operational Guidelines and Quality Standards for District Hospitals were launched by the Ministry of Health & Family Welfare. This was followed by development and launch of Quality Standards for Community Health Centres (CHCs) and Primary Health Centres (PHCs), followed by Quality Standards for Urban PHCs in the subsequent years. There is an explicit system of measurement of extent of compliance against each of the National Quality Assurance Standard (NQAS). Each Quality standard has measurable elements and checkpoints.

For implementation of the NQAS, an independent Certification Cell has been created within the Quality Improvement Division for managing NQAS and LaQshya Certification Programmes with the aim of following objectives:

1. To plan the National Assessment of Public Health Facilities under NQAS & LaQshya
2. To review the assessment report for accuracy and completeness
3. To finalize the draft report of assessed health facilities as per the award criteria and provide recommendation to the MoHFW
4. To liaison with MoHFW for assessment findings and certifications.
5. To ensure timely dispatch of all NQAS and LaQshya certificates to the certified facilities.
6. To collect and analyse assessment feedbacks of assessors from the assessed facilities and ensure timely corrective and preventive actions through proper channel.
7. To share the gap report with the health facility for improving Quality through closing gaps and identifying opportunities for Improvement
8. To monitor the health facility's continued compliance with standards through annual review of Surveillance audit report of the facility

For supporting above mentioned tasks, NHSRC intends to induct a Consultant in the Certification Cell, QI Division. The incumbent is expected to have good clinical background and excellent writing skills. *The*
