D.O.No. P-17029/34/2022NHM-IV

Dated: 02th February, 2026

Dear MDs,

As a continuous effort to improve the health care service delivery, integration of innovations into public health systems is essential.

2. This letter intends to address the critical issues concerning adoption and uptake of innovative health technologies by States and Union Territories (UTs) in India. Government of India has formulated a comprehensive institutional framework to support states and UTs for piloting new health technologies before implementation.

3. The framework, enclosed along with this letter, is designed to guide and support the systematic identification, evaluation, piloting, and integration of health innovations into public health systems. This framework further reiterates the commitment of Ministry of Health and Family Welfare (MoHFW) and the National Health Mission (NHM) in promoting health technology innovations. It will provide expert guidance and invaluable support for the adoption of innovative health technologies across the country.

4. We urge you to actively participate in this initiative and leverage the resources and support provided through this framework.

With Regards .

Yours sincerely,

(Sibin C)
